

Stain Commission

Joint Commission of Institutes for Forensic Science and
Legal Medicine

Certificate

GENA Institut for DNA-analyse Stavanger

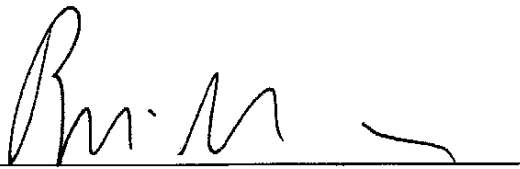

participated in the GEDNAP 39 Proficiency Test for forensic
DNA typing in the year 2009.

The Proficiency Test included the DNA systems TH01, VWA, FGA, D21S11, D3S1358, D8S1179, D18S51, D16S539, D2S1338, D19S433, TPOX, CSF1PO, D5S818, D13S317, D7S820, Amelogenin, DYS19, DYS385, DYS389 I, DYS389 II, DYS390, DYS391, DYS392, DYS393, DYS437, DYS438, DYS439, DYS448, DYS456, DYS458, DYS635 and GATA H4.

All samples were successfully typed in the following systems:

TH01	VWA	FGA	D21S11
D3S1358	D8S1179	D18S51	D16S539
D2S1338	D19S433	TPOX	CSF1PO
D5S818	D13S317	D7S820	Amelogenin
DYS19	DYS385	DYS389 I	DYS389 II
DYS390	DYS391	DYS392	DYS393
DYS437	DYS438	DYS439	DYS448
DYS456	DYS458	DYS635	GATA H4

Münster, 26.03.2010

Prof. Dr. med. B. Brinkmann
(Chairman of the Stain Commission)
